Memory Care Neighborhood

Forest Hills Commons offers a distinct memory care neighborhood that is the perfect environment for residents experiencing the early and middle stages of the Alzheimer's and Dementia journey.

The neighborhood customizes the care and program based on the resident's individual strengths and needs. The unique structured program gives the opportunity to maximize and sustain each resident's independence.

The programming consists of physical, cognitive, creative, sensory, and spiritual activities along with a variety of other outlets to allow them to freely express themselves.

There is also a strong focus on service projects in hopes of involving and keeping the individuals active in the community.

Assisted Living Apartments

Everyone loves freedom and choices... and we kept that in mind while designing our Senior Apartments. Our Assisted Living Apartments offer services that are tailored to meet the needs of each individual, allowing them to live life to the fullest.

Our Apartments for seniors are available in a variety of floor plans and decorated as you so desire, making a familiar and comfortable atmosphere where family members and friends can visit. Our residents enjoy the company of their neighbors while enjoying three meals a day offered in our unique, restaurant-style dining rooms. There are many opportunities to participate in a wide range of planned social activities, scheduled transportation to shopping, restaurants and appointments. Our healthcare team is available 24 hours a day. We continue to add services designed to keep our residents as active as they desire while having the comfort and security of living in a senior community.

Respite Care

Respite stays are an option for those who need care on a short term basis. This allows home caregivers the ability to travel, start a new job, or recuperate from an illness. Many find Respite stays the perfect option for recovery from surgery or hospitalization. Should a short stay require extended care, we can accommodate that too. We carefully examine the needs of our respite guests and provide the level of care required to make their stay comfortable and enjoyable. Family members leave with the confidence that their loved one is safe and in good hands.
